Balochi Phonetic keyboard layout

صوتی

The large character is typed by the key alone. Hold **Shift** for the one at top right. Hold **AltGr** (the right Alt key; Ctrl+Alt also works) for the one at bottom right, and Shift+AltGr for bottom left. The small grey letter is the English key it sits on.

A phonetic layout from SIL. Balochi vowels have their own keys (ۆ on U, ێ on I, ے on E), and the short vowels zabar, zer and pesh are on F, V and O.

Best for: Balochi writers who know the English keyboard.
